

## How to use an iPad to enhance personal learning in the classroom

### Aims

- Share our experience using mobile devices (tablets) in the Chinese classroom
- Present the benefits and most useful apps in our experience

### Previous Experience

- Who has used apps in the classroom before?
- What benefits did you find?
- What apps did you use?

### The Benefits

- Allowing students to take control of their own learning and interact
- Engaging students in a wider range of content
- Easy access to numerous resources
- Motivating students at all levels
- Freedom for teacher facilitated learning

### How to plan a lesson in using an iPad

- Get the iPads ready
- Theme /topic/content focus
- Download the apps required for the lesson
- Lesson delivery (individuals/pairs, small groups/whole class)
- Project or product
- Assessment
